Summary

Software Engineering student with professional engineering experience at **Trendyol** and paid freelance software development experience. Experienced in building and testing backend services, distributed systems, and full-stack applications using **Java, Spring Boot, Python, PostgreSQL, Kafka, Docker**, and modern development tooling.
Available for full-time internships from 17 January 2027.

Experience

Trendyol	Istanbul, Türkiye
Backend Engineering Intern	Jun 2025 – Sep 2025
- Built and demonstrated a Java / Spring Boot microservice with REST APIs, PostgreSQL, and tests. - Contributed backend changes including validation, retry/backoff, Kafka event handling, and API mapping. - Wrote JUnit / Testcontainers tests, debugged service issues, and added Grafana monitoring.	
Kvote 2 Hjælperen	Remote
Freelance Software Developer	Feb 2026 – Apr 2026
- Developed and delivered a Python workflow integrating LLM APIs, prompt chaining, validation, and testing. - Implemented an LLM-based evaluation step for relevance, grounding, clarity, and answerability, with failed outputs rejected or regenerated.	

Projects

OrderFlow
Java 21 • Spring Boot • Kafka • PostgreSQL • Redis • Docker Compose • Testcontainers • JUnit
- Built/worked on a distributed asynchronous order-processing system using Kafka KRaft, PostgreSQL, and Redis. - Containerized local and CI environments with Docker Compose and wrote Testcontainers integration tests using Kafka and PostgreSQL infrastructure.
ML Training Inspector
Python • FastAPI • PyTorch • WebSockets • React • Docker
- Built a browser-based system for real-time monitoring of PyTorch training using FastAPI and WebSockets. - Implemented async metric delivery, reconnection handling, training controls, and checkpoint saving.

Skills

Programming & Frameworks	Databases & Messaging
Java 21, Python, Spring Boot, FastAPI, React, TypeScript	PostgreSQL, Redis, Apache Kafka, Supabase
Testing	Tools & Platforms
JUnit, Testcontainers, Mockito, Integration Testing	Git, GitHub, Docker, Docker Compose, GitHub Actions, CI/CD, Linux, Maven, Grafana, AWS Fundamentals

Education

OSTİM Technical University	B.Sc.
Software Engineering	Türkiye • Expected Aug 2027

Languages

English	German	Turkish	Arabic
C1	B1 (Goethe-certified)	Native	Native
